## Smart Lock U200

Ultimate Smart Lock Retrofitted for You.

**Matter over Thread Support<sup>1</sup>**

The U200, with Matter over Thread support, seamlessly integrates with other smart home setups, extending lock battery life up to 6 months by reducing power consumption.

**NFC and Apple Home Keys<sup>2</sup>**

The U200's NFC module enables unlocking with an iPhone or Apple Watch, even when the phone or watch is powered off, meeting Apple's security standards. NFC cards offer added security for unlocking.

**Auto Lock**

Thanks to the built-in gyroscope, the U200 can remind you in case you forget to close the door, and even lock the door automatically after you close it.

**Quiet Unlock Mode**

Our innovative Quiet Unlock feature effortlessly unlocks your door with reduced noise levels, accompanied only by the gentle whir of the motor turning slowly, ensuring peace and tranquility.

**Additional and Emergency Unlock Methods<sup>3</sup>**

U200 provides diverse unlock options: mechanical keys, PIN codes, fingerprint recognition, and Aqara Home app integration. Compatible with third-party ecosystems, it offers secure, convenient access.

**Rechargeable Li-Ion Battery, Multi-Power Options<sup>4</sup>**

The lock is capable of operating using rechargeable Li-ion Battery for extended periods. Moreover, the keypad is compatible with AAA batteries and can also be powered through hard wiring, in addition to featuring Tamper Alert and FPS rating.

**Easy Installation & Great Compatibility<sup>5</sup>**

The U200 simplifies installation, fitting over existing locks without modification. Requires a cylinder with Emergency Function. Enhances security conveniently with no complex setups or door alterations.

**Temporary Passwords<sup>6</sup>**

U200 offers advanced security with versatile temporary password options, such as One-Time Passwords (One-Time Passwords) and Periodic Passwords, providing flexible access control for enhanced convenience and peace of mind.

<sup>1</sup> Performance based upon: Ready-to-locking and locking actions via Thread/NFC.  
<sup>2</sup> NFC cards may only be available in certain models. Apple's in-Matter controller & Border router is required.  
<sup>3</sup> Only users with physical access also supported for security. An Apple Watch Ultra and other third-party smart keys are not supported.  
<sup>4</sup> Apple Home Controller and Thread Border Router are required to achieve top-to-bottom lock with Apple Home Keys. Can be combined with the lock for protection by using the same factor. It is recommended to use the same password.  
<sup>5</sup> AAA batteries are not power options, and the hard-wired power requires 12V-24V AC or DC power supply.  
<sup>6</sup> The U200 works with cylinder equipped with Emergency Function feature. Also, models can be unlocked from the inside and a key user & a new key can be added on the inside.  
<sup>7</sup> Settings can only be adjusted via direct Bluetooth connection.
