Fluted Wall Panel

Our fluted wall panels feature modern linear designs, crafted from a PVC wood plastic composite using cutting-edge "extrusion + color-well-mixing" technology. This advanced process enhances the panels with a natural wood tone and grain finish, elevating their aesthetic appeal beyond traditional laminated types. Pre-finished and easy to install, these panels are low-maintenance, eco-friendly, and durable. They've gained popularity among homeowners seeking DIY products due to their hassle-free installation. Fluted panels are the current trend for both residential and commercial applications, serving as stylish solutions for decorative paneling and feature walls.
